

Tripwire End of Life Notice

VnE 1100, VnE 4100, VnE 5100

Notice Date: May 21, 2014

Last Updated: May 21, 2014

Over the past several years, Tripwire has continued to add significant new capabilities to our product lines, as well as to our market-leading discovery coverage, which now exceeds 78,000 conditions, and includes advanced Web Application and SCAP scanning capabilities. In order to continue to provide high-performing, innovative, and feature-rich products, from time to time Tripwire may introduce new appliance offerings and discontinue previously released appliances.

Tripwire announces such discontinuations ahead of time to provide customers with an opportunity to plan to upgrade their appliance installation prior to the 'End of Life' (EOL) dates.

This is the end of life notice for the VnE 1100, VnE 4100, and VnE 5100. These models will reach EOL per the schedule below:

VnE Manager	1100	February 1, 2007	December 1, 2012	December 1, 2015
	4100	March 1, 2009	December 1, 2012	December 1, 2015
	5100	August 1, 2008	December 1, 2012	December 1, 2015

Description:

Effective December 1, 2015, the Tripwire VnE 1100, VnE 4100, and VnE 5100 will all reach EOL status, and will no longer be supported by Tripwire.

For more information on what support will be provided on appliances during the various stages of their product life, please see the Tripwire Appliance and Hardware Discontinuation Policy. The Tripwire Appliance and Hardware Discontinuation Policy is one of many policy documents available on the Tripwire Customer Center (TCC) [here](#) and the Appliance and Hardware policy specifically is available [here](#).

Upgrades:

Please contact your account manager to discuss transitioning to one of our current models of DP or VnE Manager, as well as to inquire about upgrade programs which may be in place.

Thank you for your attention and we look forward to serving the needs of your organization. We appreciate your business.

Sincerely,

Aaron Beck – Sr. Product Manager (Appliances)
